MEDIA

Co-funded by
the European Union

Creative Europe is the EU's flagship funding programme for the cultural and creative sectors across Europe with a budget of €2.44 billion over 7 years. Creative Europe invests in actions that reinforce cultural diversity and respond to the needs and challenges of the cultural and creative sectors.

The programme is divided into three strands: a MEDIA strand, supporting the audio-visual sector; a Culture Strand; and a Cross Sector strand. The MEDIA strand supports audio-visual companies to develop, distribute and promote European works as well encouraging cooperation across the audiovisual industry and nurturing new talent. MEDIA also offers opportunities to develop skills in traditional and new media technologies as well as supporting European companies in targeting markets and networks within and beyond European borders.

Since the commencement of the new Programme in 2021 €8.7 million has been awarded to Irish companies and organisations under the MEDIA Strand.
